

Back for the 7th edition, Global Entrepolis @ Singapore (GES) 2010, held by the Singapore Business Federation on 7-8 October 2010 at the Raffles City Convention Centre, Singapore, is the international Summit on business leadership and global trends, offering CEOs a thought-provoking analysis of the current business issues and a view of the future trends as we move into the new decade. The GES 2010 Summit is the perfect destination for business leaders to understand how they can tap into the growth in Asia and gain insights into the renaissance of Asian businesses in the global economy.

Experience the GES Summit 2010 through the specially-designed interactive formats of panel and discussions, interviews and case studies helmed by its panel of top notch speakers.

GES 2010 Summit Highlights

Day One, 7 October 2010

Momentum The tumultuous global economy of the last 2 years looks to be finally behind us. As recovery takes place, CEOs must lead their organisations to respond to the changed landscape and prepare for a new phase of growth that is predicted to be a slow and bumpy.

MOMENTUM will offer thought provoking dialogues and alternate views on the hot issues of strategies, innovations, markets and capacity building.

Day Two, 8 October 2010

Next The new decade provides a fresh start to many of the pressing issues facing the business community especially those surrounding climate change and sustainable development. As technology and innovations continue to evolve and change, what is the shape of things to come that will impact the market, our organizations and the competitive forces.

NEXT will provide CEOs with insights into the future megatrends, emerging industries and technology and new business models.
